HOSPICE RESIDENCE

A Program of United Hospice

December 16, 2020 – UPDATED POLICY

Following CDC and NYS Department of Health recommendations to protect our vulnerable patient population as well as our vital caregivers, the following visitor restrictions are being enforced:

Visiting hours are restricted to 8:00 am – 8:00 pm.

All visitors must be screened each time they enter the building.

Two visitors may visit from 8:00 am to 8:00 pm in the patient's room, not in any common areas. They may also visit at the same time. Visiting will be limited to the same two individuals for each patient.

UH will provide the visitor with a surgical mask which must always be worn.

Only one family member/friend may remain overnight in patient's room.

If needed, the restrictions can be adjusted on a case-by-case basis by the senior staff member on-site for extenuating circumstances.
