

"Bonnie Walsh, RN, was dedicated to hospice and palliative care nursing. She was committed to providing end-of-life education to all health care providers, patients, their families, and the community. Bonnie was the quintessential hospice nurse and believed that quality end-of-life care is first and foremost based on knowledge."

### MISSION

United Hospice **Honoring Life, Giving Care, Bringing Comfort.**

### VISION

United Hospice envisions a community in which all individuals and their loved ones facing serious illness retain their dignity and hope while receiving the best care and support that hospice has to offer.

### VALUES

At United Hospice (UH), we are committed to our mission of honoring life, giving care and bringing comfort to our patients and their families. To ensure that we are fulfilling our mission, our directors, leaders, employees and volunteers are obligated to uphold and promote our Shared Values. Our Shared Values help define what we are, what we do, and what we aspire to be.

### BONNIE WALSH EDUCATION FUND

United Hospice was fortunate to have known Bonnie Walsh as a friend and colleague for 25 years. Bonnie served the organization with distinction in numerous capacities, including direct-care hospice nurse, director of outreach services and assistant director of the organization. She was a pioneer in the field of hospice and palliative caregiving, and brought her gifts of compassion and intellect to the teaching community. Bonnie educated scores of nurses in hospice care at local colleges and nursing schools, as well as community leaders, religious groups and health care associations. Her passionate advocacy and support for the hospice mission was an inspiration to all who knew her. For everything she did to improve the quality of life for thousands of individuals and their family members in Rockland County, the Board of Directors of United Hospice of has established the Bonnie Walsh Education Fund in her memory.

The Bonnie Walsh Education Fund will support annual educational programs that reflect the values Bonnie held so deeply. This endowed fund will increase community awareness of hospice care among health care professionals, patients and their families and provide professional development opportunities for direct care staff at United Hospice.
